

AIRCRAFT MAINTENANCE & MODIFICATION SUPPORT SERVICES

Kinetic Technical Services, Inc. is a Service Disabled Veteran Owned Small Business (SDVOSB) committed to supporting our client's military aviation maintenance and modification programs. As a full life cycle services provider, we assemble and deliver Maintenance Repair & Overhaul (MRO), Contractor Logistics Support (CLS), Integrated Logistics Support (ILS), engineering support services and modification/installation teams to government and commercial clients. We have experience mobilizing these teams to clients performing aircraft maintenance and modifications at the organizational (O), intermediate (I) and depot (D) levels on both fixed and rotary wing aircraft platforms.

SUPPORT SERVICES OFFERINGS

Kinetic Technical Services quickly assembles and mobilizes highly qualified MRO, CLS and ILS teams supporting clients' programs at the O, I and D-Level for any type of aircraft globally – from front-line fighters to large cargo transport aircraft. Additionally, we activate experienced teams with the requisite level of leadership and supervision in support of aircraft modification & upgrade, manufacturing, fabrication, design engineering and certification programs.

MAINTENANCE, REPAIR & OVERHAUL (MRO) & CONTRACTOR LOGISTICS SUPPORT (CLS)

- Preventive and Corrective Maintenance
- Avionics Systems
- Supply/Materials Management
- Propulsion Systems
- Corrosion Control
- Egress Systems
- Airframe Systems
- Quality/Safety
- Fuel Systems
- Electrical Systems
- Environmental Systems
- Line Maintenance
- Ordnance
- Tool Room
- Maintenance Admin & Management

INTEGRATED LOGISTICS SUPPORT (ILS)

- Reliability & Maintainability
- Engineering
- Production Control
- Maintenance Planning
- Materials Management
- Supply
- Training
- Logistics
- Transportation
- Support & Test Equipment
- Technical Publications
- Facilities Management
- Technical Writing
